

PRUTHVIRAJ MOHITE

Senior Data Analyst

+91 9096494865 • pruthvirajsantoshmohite@gmail.com • Pune, India • [LinkedIn](#)

Summary

Senior Data Analyst with 4+ years of experience specializing in Power BI, SQL, Python, and Machine learning. Experienced in data extraction, transformation, and modeling to deliver actionable business insights. Skilled in process improvement and driving revenue through data-driven decision-making. Committed to continuous learning and staying up to date with industry developments

Skills

BI & Visualization: Power BI (DAX, Power Query, RLS), Power BI Service, MS- Excel

Programming & Analytics: Python (Pandas, NumPy, Matplotlib), Data Cleaning, Exploratory Data Analysis (EDA), Data Transformation, Automation Scripts.

Databases: MS-SQL Server, Stored Procedures, Functions, Tables, Query Optimization.

ETL & Data Engineering: Data Modeling, Data Validation, Incremental Loads.

Experience

MDIndia Health Insurance TPA pvt.ltd

Senior Data Analyst (Team Lead)

06/2022 -Present

- Built interactive dashboards and KPIs using **DAX, Bookmarks**, and **Dataflow**, improving reporting accuracy and accessibility for business teams
- Implemented **Incremental Refresh, Row-Level Security (RLS)**, and managed Workspaces, **Gateways**, and **Scheduled refreshes** In **Power BI Service**
- Enhanced SQL queries, indexes**, tables, and **stored procedures** for improved database performance and **faster data retrieval**
- Built ETL processes using **Python (Pandas, NumPy)** for data extraction, cleaning, transformation, and loading into SQL Server and Power BI datasets.
- Ensured high-quality datasets by implementing **data validation, anomaly detection, and data quality** checks using SQL and Python for accurate analytics and decision-making.

CodeSpyder Technologies Pvt Ltd.

06/2021 -07/2022

Intern

- Used Power BI and SQL for analyzing, transforming, and visualizing large datasets from multiple data sources
- Performed **EDA** for data manipulation, aggregation, and analytical calculations
- Automated data pipelines to maintain accuracy, consistency, and timeliness of critical business reports

Education

NMIMS Mumbai

08/2021-08/2023

MBA in Information technology and systems management

Vishwakarma University, Pune

08/2017-08-2021

B.Tech Mechanical

Projects

- Built **interactive Power BI dashboards** by combining **MySQL, Excel, and MSSQL (~4M records)** to provide **insights** across **finance, sales, and insurance**; used **DAX measures, Power Query**, and **scheduled/incremental refresh** for **reporting**.
- Executed **data cleaning, normalization, and dataset integration, conducting EDA to identify trends, anomalies, and key metrics for reporting**.
- Designed and implemented **machine learning** PoCs leveraging **classical ML algorithms**, along with practical exposure to **Generative AI** use cases.
